Construction of Polyethylene Terephthalate (PET) Multi-Product Plant Facility

Construction Management of a Manufacturing Plant

**Client**

ArchEn Technologies. Inc.

Project

Construction of PET Multi-Product Plant Facility

Location

San Fernando, Pampanga, Philippines

Project Period

Start April 2004
End July 2005

Project Description

A 3-line processing of Multi-Product Plant Facility (MPPF) using PET bottling technology is built as part of San Miguel Corporation's strategic projects. The plant is located adjacent to the San Miguel Brewery and Metal Crown plants as its main anchor. Beverage Packaging Specialist Inc. (the Owner), a wholly owned subsidiary of San Miguel Corporation, owns the plant.

Scope of Work

TAPI as the Construction Manager performed the entire site Construction Management Services required for the construction of the Project in accordance with the normal practice of the profession and the instruction of the Client. The scope of works principally, among others, was to ensure compliance by all contractors concerned with the implementation of construction drawings and specifications, as well as the commissioning of equipment and ensure the smooth and proper interfacing and scheduling of works, management, supervision and administration of the Project, subject to the coordination of the Client in-house-engineer.
