

Incheon Port Improvements

Engineering Works of Port Facilities

**Client**

Korea Maritime and Port Administration

Project

Incheon Port Improvements

Location

Incheon, Korea

Project Period

Start 1981
End 1985

Project Description

This project enabled the Korean Government to develop the port facilities of Incheon, the second largest port in Korea. Incheon is located in the Yellow Sea and serves as a gateway to the Seoul Metropolitan Area.

Scope of Services

Consultant services included all technical, economic and financial studies, field and laboratory investigations, related detailed designs and review of various recently completed studies with respect to ports and other related matters.
