Cultural Center of the Philippines

Detailed Engineering Design and Construction Management of a Theater

**Client**

Cultural Foundation of the Philippines

Project

Cultural Center of the Philippines

Location

Manila, Philippines

Project Period

Start 1971

End 1973

Project Description

The Performing Arts Theater was the first of seven buildings that was built in the nation's vast cultural complex on Manila Bay. The Theater houses two distinct halls. The first is a 2,000-seat auditorium suitable for symphony concerts, opera or dramatic productions. Both theaters are served by grand lobbies and promenades, which have earned numerous awards for the building professional design team.

Scope of Services

Trans-Asia engineering services including geotechnical investigation, engineering design, construction management and operation and maintenance services.
