

Two Salcedo Place Condominium

Construction Management of a Residential Condominium

Client

Ayala Land, Inc.

Project

Two Salcedo Place Condominium

Location

Makati City, Philippines

Project Period

Start August 1989

End November 1991

Project Description

The Project is a twelve (12)-storey residential condominium building located in Salcedo Village, Makati City. It consists of 46 units inclusive of the four units at the Penthouse. It has 1-½ level basement parking, swimming pool, social hall and other amenities. It also has two elevators to serve the residents and a satellite fed TV.

Scope of Services

Trans-Asia provided the complete Construction Management Services for the Project and Building Management Services, which involved supervision and coordination of the various contractors and engineering disciplines.
